

HORIZON HAVEN

A CONTEMPORARY CLUBHOUSE

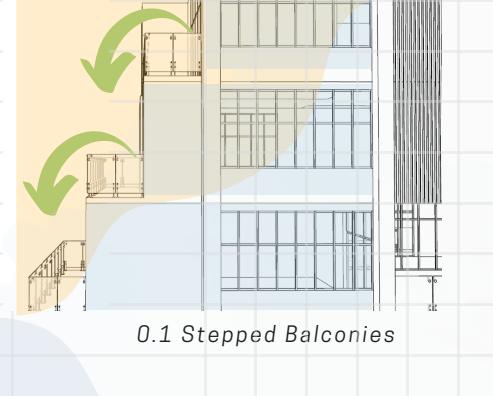

Proposed Scheme
11 June 2024

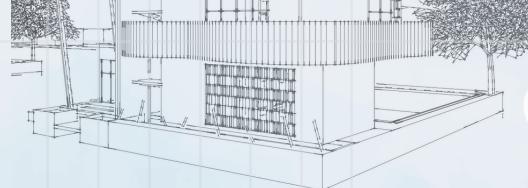

The project aims to design a contemporary clubhouse utilizing stepped terraces and prioritizing visual connectivity. Emphasizing a seamless integration with the surrounding landscape, the design will offer panoramic views and a sense of openness. Sustainability will be a core consideration, integrating green features seamlessly. The clubhouse will serve as a vibrant hub for community engagement and leisure activities.

CONCEPT NOTE

Stepped balconies offer a unique architectural solution, blending functionality with aesthetic appeal. Each tier creates distinct outdoor spaces, fostering privacy while promoting social interaction. Embracing verticality, they maximize views and natural light.

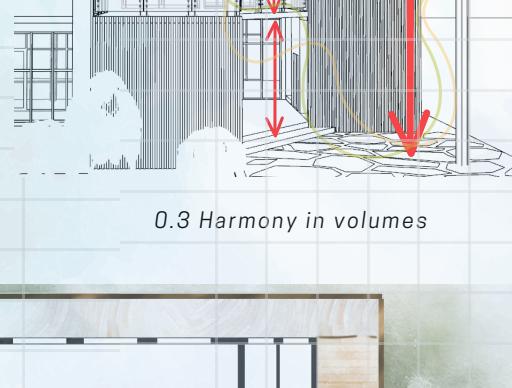

0.1 Stepped Balconies

0.2 Integrated forms

Incorporating a play of volumes, our design orchestrates a dynamic interplay of architectural forms. Varied heights and depths create visual interest and spatial diversity. Volumes interact harmoniously, defining zones within the clubhouse while enhancing its exterior allure. This concept elevates the architectural language, offering an engaging and memorable experience.

Site Accessways

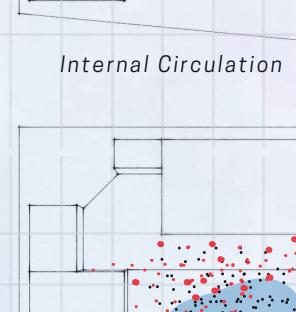

Node Generation organized by an axis

Clustering repetitive spaces

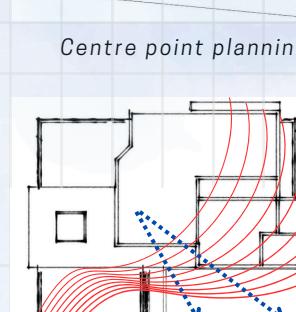

Axial conditioning of spaces

Internal Circulation

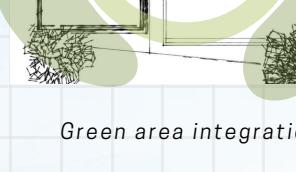

Footfall along the leisure node

Centre point planning

Stepped Balconies to enhance visual connectivity

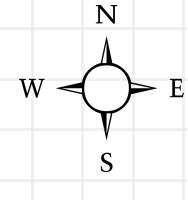

Green area integration

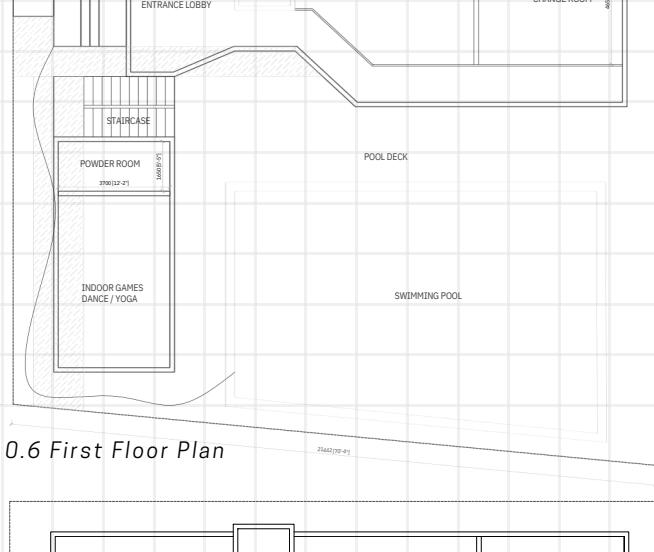

The clubhouse design integrates essential amenities to foster community engagement and leisure. Beginning with an inviting entrance lobby, it flows seamlessly into a spacious swimming pool area. Adjacent to this, an AMTC room provides a tranquil retreat. A versatile party hall with pantry caters to social gatherings. Kids play, gym, and indoor game areas offer recreation, while a co-working space accommodates professional needs. Additionally, a guest room, washrooms, and a restaurant to provide comfort and panoramic views.

A CONTEMPORARY CLUBHOUSE

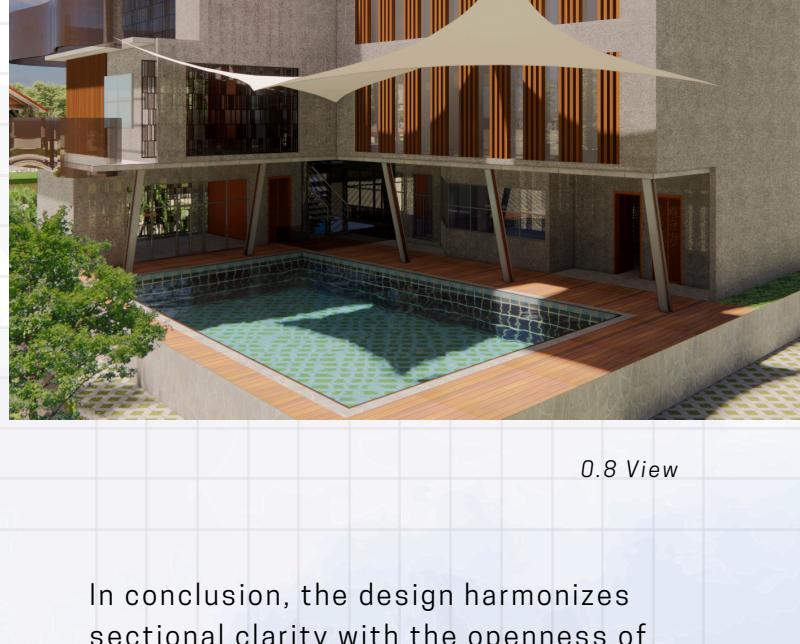

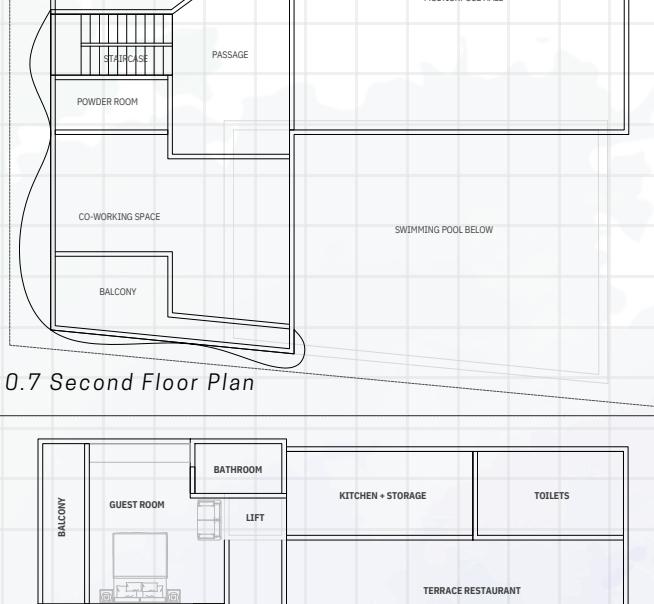

Moodboard for reference

SPATIAL REQUIREMENTS

1. Entrance Lobby area
2. Swimming pool
3. AMTC Room
4. Party hall with Pantry
5. Kids play area
6. Gym area
7. Indoor game area
8. Co-working space for 5 to 6 people
9. One Guest Room 12x13
10. Open Terrace restaurant on top
11. Washrooms wherever required

0.8 View

In conclusion, the design harmonizes sectional clarity with the openness of stepped balconies, creating a dynamic and inviting clubhouse environment. Seamlessly blending indoor and outdoor spaces, it fosters community engagement, recreation, and relaxation. With a focus on spatial richness and connectivity, the clubhouse emerges as a vibrant hub of social activity and leisure.
